WHEELING, JUNE 24, 1896.

#### REPUBLICAN CONVENTIONS.

State Nominating Convention-Parkers

State Nominating Convention—Parkers-burg, July 22.
Fourth District Congressional Conven-tion—Parkersburg, July 21.
Pirst District Congressional Convention—Clarksburg, July 21.

Notice to Republican Clubs of W. Ve.

It is important that you send the name of your club, together with the number of members and names of officers, to the secretary of the State League, at Wheeling, immediately.

By order of C. D. ELLIOTT,

Broadent

JOHN W. KINDLEBERGER,

Secretary.

(Republican papers please copy and notice.)

#### OFFICIAL CALL

#### For the First District Republican Congressional Convention.

The Republican voters of the First Congradion District are bereby notified that
a Convention for the purpose of monimatting a candidate to represent the said
District in the Congress of the United
States, will be held at Clarksbury. W. Va.,
Tuedday, July 21, 1886, beginning at 11
The hasts of representation will be one
to for every one hundred votes cast for
Congressman Dovener in 1994, and one for
recry fraction of one hundred over fitty.
County committees are requested to provide for the selection of delegates to said
Convention.

H. C. RICHARDS, Chairman.

#### NATIONAL REPUBLICAN TICKET.

For President, WILLIAM M'KINLEY, For Vice Presiden GARRET A. HOBART, of New Jersey. FIVE POINTS ON MONEY.

Pirst-That there is not a free coinage country in the world to-day that is not on a silver basis. Second-That there is not a gold-stand-

Second—That there is not a gold-stand-ard country in the world to-day that does not use silver as mouey along with gold. Third—That there is not a silver-stand-ard country in the world to-day that use any gold as money along with allver. Fourth—That there is not a silver-stand-ned country in the world to-day that has more than one-third as much money in ireulation per capita as the United States have and

have, and
Fith-That there is not a sliver-standard country in the world to-day where the
laboring man receives fair pay for his
day's work-John G. Carlisle, Secretary of
the Tensury. Treasury.

Republican Strength this Year.

The bolters from the Chicago conven-tion took very lattle with them and did not imperil Republican success. Three delegates from Utah went out, but their places were promptly filled by their al-ternates, and Utah remained to the end. But if Utah be counted in the bolt and all the revolting silver mining camps be bunched, the bolt stands this way in the cold figures of electoral votes:

The five mining camps combined have than Massac colorado, Idaho and Nevada, represent-log 10 of these votes, were carried by the Populists in 1892, so that they do not stand for a new loss. The bolters are ch more noisy than important, and shelr motive is so obviously one of utter and unreasonable setishness that they can deceive nobody who is not eager to

The electoral college as it now stands is composed of 447 votes. The successful candidate must have at least 224 votes. The Republican nomines, back-

ed by his party's platform declaring for sound money and protection, is op-posed by the Democratic and Populist parties on just the opposite kind of platm. He will have the following states

Connecticut.

Maine.
Massachusetta
New Hampshire
Saw Jersey.

Chio.

Censylve. without a struggle:

the Republican neminee must have 84 electoral votes, and he has the following states, with 190 electoral votes, to get

outh Dakota.

If will not be surprising if the Repub-Bean ticket shall carry every one of these states and leave the Democrats ad Populists the remaining 117 votes to The Democrats divide between them. The Democrats will either declare for free gilver or straddle the money question. In either

case they are already whipped. case they are already whipped. If it were possible for them to accomplish the impossible and declare for the gold standard, the fight would come on the single issue of the tariff, and on that they would be ground to powder.

McKinley and Hobart, sound money and protection, is a winning cry.

The Republican Party is Sound.

In the Republican national convention he vote in favor of the sound money plank of the platform was just about eight to one. On the basis of population it was just about seventeen to one. So this great and honest party spoke against any degarding of the money of the people and in favor of a hundredcent dollar for everybody. Following

are the states	that voted	agains	t sound
money; California Colorado. Idaho Montana Nevada North Carolina Etah Wyoming Arixona New Mexico			1,208,130 612,130 84,36 132,136 45,761 1,617,947 207,190 60,706
Total			

sound money Alabama Araknsas orgia Kentucky Maine.... Maryland Massachu New Hampshi New Jersey... New York... North Dakota. Virginia Washington West Virginia

The four bolting states have less popu lation than the state of West Virginia. Noisy Nevada has about the population of the city of Wheeling. The sound money states represent the population, the industry and the savings of the country, and certainly as high an average of intelligence and integrity as is found in the rotten money states

To-night's Republican ratification meeting at the Grand Opera House will be an event. There will be some good talking and a good chance to sound the battle cry of victory.

. Congressman Dayton's Speech.

The Intelligencer devotes considerable space to the speech of Representative A. G. Dayton, of the Second district, delivered at Morgantown on the occasion of his nomination for Congress, in the belief that it will be read with profit by all. It is the first speech delivered by a standard bearer of the party in this state this year, and is so complete and masterful in its presentation of the two great issues which are confronting the people that it may be regarded as a key note utterance.

Mr. Dayton reviews the history of th past three years of a Democratic ad-ministration and the immediate terrible results of the election of the Democratic party to full power in 182. The facts, as he elequently presents them, are in themselves a terrific arraignment of the party of false pretenses, for they are drawn from the records and from the experience of every wage-worker, every farmer, every business man and every manufacturer in the country.

The purpose of the speech is to show by these facts and experiences that the real cause of the existing condition, from which the people are crying for re-lief, is not our monetary system, which the Republican party is pledged to maintain against the Democratic threat to overturn, but the treasury-depleting, trade-wrecking, wage-destroying, debt-creating tariff policy of the Democracy.

There is no trouble about the money question until this policy was inaugurated and Mr. Dayton turns on the light of that truth in a most convincing way. There is not a dry sentence in the speech. In it is something for every voter to think about, and it deserves a careful and thoughtful reading by every citizen and the ble throughout West Virginia.

"Old Time Democrat" asks the Register some plain and pertinent question on the free silver question. The Regis nes not answer the questions. Why?

Mr.Dayton's party has done well to re-nominate him by acclamation. He is serving his district well and will do even better now that he has his hand in.

"Bullion"-There is no duty on gold or

#### Cowan Found Guilty.

## The Wheeling Wheelmen of 1886.

There was a folly lot of boys
on cycles they did ride.
They climbed up the highest hills
And coasted the other side.
And if you wanted to see some fun
And have a picasant ride,
Just go with the Wheeling Wheelmen
And see how swift they gible.

For there was David Dinger, On a Facile he did ride; And William Wright on a "il" Star, How swiftly they would gilde. Then following them came Dr. Magor And John Tolliny so say, On their Stack Experts They say "Hoys, clear the way."

Then there were the Gruber Brothers on their Columbias they did go, with Harry Gaus a-combin. You bet they were not slow. With Jacob Grubb on a Peny Star, And Dent Taylor on his wheel, Didn't they make the dust fly When they wend out for a whirt?

When they want to the seed of the Are new upon the shelf. For they are greater were yould and can have now the shelf. For they are greater they there else. Their where how they to not follow, fluits they have the they do not follow, fluits they have the they do not follow, fluits they have the seed at the shelf of the young chap hollot. Wheeling June 2.

OREAT sales prove the great merit of Hood's Sareaparilla, and great merit curbles it to accomplish wonderful cures.

Highest of all in Leavening Power .- Latest U. S. Gov't Report

WEATHER CROP BULLETIN Of the Wes Virginia Section of the Government Bureau.

PARKERSBURG, W. Va., June 23

Director Ball, of the West Virginia section of the U. S. weather bureau, in the

tion of the U. S. weather bureau, in the weekly crop bulletin, says:

The frequent rains during the past week have delayed farming operations to a considerable extent. The ground is too wet for cultivation in most of the farming sections, and the corn crop has become quite weedy, but has not otherwise been damaged. The crop is growing finely and is very promising.

crop is growing finely and is very promising.—
Wheat harvest has been finished in some of the lower counties and is in progress generally. The crop is very uneven, and is everywhere light in straw. Some correspondents say that fields in their neighborhood are not worth cutding, but most of them report a short straw, and thin crop, but with well filled heads and plump grains.
Oats and rye are rather better than the usual crop and promise a fine yield.
Meadows and gras fields are thickening and the hay crop will be better than was expected. Some clover has been cut and is reported a good crop.
Garden crops of all kinds are reported well, especially potatoes, which promise a large yield.
Correspondents from Jackson and Hardy countles report considerable

a large yield.
Correspondents from Jackson and
Hardy countles report considerable
damage from chinch bugs working on
the wheat, oats and corn crops. The
damage appears to be local.
The fruit and berry crops continue
in good condition and there is an abundance of each.

#### QUAY'S CONGRATULATIONS.

McKinley's Nomination Represents the Best Thought of the Party.

CANTON, Ohlo, June 23.-It was 8 clock this morning when Governor McKinley made his appearance on the McKinley made his appearance on the front porch at his home. Shortly afterwards he retired to his library and glanced at a few of the thousands of letters in his morning mail. Among them was an autograph letter from Senator Quay, who said he did not try to push his congratulations into the first great flow that came, but continued:

do congratulate you on the splendid

"I do congratulate you on the splendid vote of confidence you received in the convention, which represents absolutely the best thought of the Republican party of the nation."

While the question of the location of the national headquarters has been under discussion and Cleveland has made a strong effort to secure them, the impression does not exist here that the custom of years past will be changed and it is believed that the Republican national campaign will be directed by Chairman Hanna from New York, as usual.

#### WOMEN TURNED DOWN.

American Turnerbund Exclude

Them from the Councils.

LOUISVILLE, Ky., June 23.—At the
session of the North American Turnerbund this morning, which was the most important yet held, the women were practically given the turn down, and while recognized to some extent, they cannot book upon it as anything like a victory. It was recommended by the committee that women were permitted to take part in the lig carnival at St. Louis next year, which was carried, but they were denied admittance into the convention by a vote of 215 to 167. There was a stormy session on the question of laws governing immigration. The committee on affairs of union urged all districts and societies to oppose obnoxious laws concerning immigration. bund this morning, which was the most

### The Sunday School Convention

The Sunday School Convention.

BOSTON, Mass., June 23.—The Eighth International and Thirteenth National Sunday school convention was opened in Tremont temple this forencom, with a praise service led by Dwight L. Moody. A business session of the convention was opened by the chairman of the executive committee, B. F. Jacobs, of Chicago, at the close of the praise service, and William Randolph, of Missouri, was introduced as chairman of the convention. Mr. Randolph gave a brief resume of the workings of the Sunday schools as an evangeliging medium and then Rev. George C. Lorimer, D. D., pastor of the Tremont temple, extended a hearity welcome to the delegates. Hon. Samuel H. Blake, Q. C., of Toronto, responded.

SCARCITY OF TERRITORY

Open to the Drill Commented on by the Oil Critic, "D. S. W:"

Open to the Drill Commented on by the Oil Critic, "D. S. W:"

It is becoming painfully apparent that new territory that will produce the oleaginious fluid in paying quartities is becoming reduced to attenuated pools, says "D. S. W."

Five years and more have clapsed since a field of any considerable area has been discovered. The question is frequently asked: "Will there be any more McDonalds or Sistersville: in Pennsylvania or West Virginia." To one who has kept in touch with field developments, and noted from day to day the many experimental well-sirilled, and how generally they have been distributed over thousands of acres of untested territory, and the barrer results that have followed, it would be contrary to one's honest convictions to argue an affirmative answer to the question. It is true, as one experienced operator expressed it a few days since, a dry hole in white sand territory loss not condemin any more territory than that particular location, but the great number of wells that have been completed by prospectors for oil and the seafchers for gas, would lead to the conclusion that nothing remains but small pools. Of that class of work there is still some hope, as there are, no doubt, more Cecil, Bullman, and Kyle pools that have not been discovered.

It must not be understood, however, that it is claimed that there is any

Kyle pools that have not been discovered.

It must not be understood, however, that it is claimed that there is any immediate danger of a suspension of operations, or a scarcity of high grade oil. The monthly report of field work and the pipe line statements are against the proposition. Omitting not more than ten wells, and of the number completed during the present month, the average production of the remainder is small. With two-thirds of the month gone, the dry holes have accumulated faster than for the same number of days in any previous month of the year. It is an open secret that many of the larger companies that have been most active in pushing the drill, have for some weeks issued orders that were plassed all along the line to curtail field operations. The only reason given for the hovement was a scarcity of accessible territory.
